

✦ MID-ATLANTIC COASTAL WETLAND ASSESSMENT (MACWA) WORKSHOP ✦

A one day workshop on assessment and on-the-ground monitoring of coastal (tidally influenced) wetlands from coastal New Jersey to coastal Maryland.

FEBRUARY 17TH, 2010
9:30 - 4:30 P. M.
CUMBERLAND COMMUNITY
COLLEGE, NJ

Goals

- To share information on past, current, and planned wetland monitoring
- Consider whether and how to develop a network, linking activities and sharing data for addressing sub-regional needs, such as climate planning

Tentative Agenda

Session 1: National/Regional Wetlands Assessment;
Past & Present

Session 2: Academia, States and NEP's

Session 3: Panels on rapid assessments and fixed stations

There is **NO** Registration fee but for food planning purposes and name badge printing, RSVP by February 8th. Please fill out a completed registration form for each person at: <http://www.surveymonkey.com/s/FZLJB22>

More Information

Agenda, speakers and additional information will be posted at: http://www.delawareestuary.org/science_projects_wetland_assessment.asp
