

Green City Clean Waters 2018 Art Contest

How YOU Can Help Prevent Pollution in Philly:

Pick Up After Pets

Dog waste introduces disease-causing bacteria into our water supply.

Don't Litter

Litter can wash into storm drains and end up in our streams!

Collect Leaves

Bag up or compost leaves!
This will prevent them from clogging up storm drains.

Go Natural

Avoid using common toxic substances like mothballs and insect sprays.

Plant Native Trees and Flowers

Plants are great at filtering pollutants, making it more difficult for them to enter the water supply.

"We Share the Delaware"

One of last year's winning drawings applied near a Philadelphia storm drain. Your work of art will act as a visual reminder that only rain should go down the storm drain!

Last year's winners holding the 2017-2018 calendars that featured their artwork.

Need Inspiration?

The next time it's raining, ask an adult to take you outside to follow the path of water to see where it goes. What color is the water? Is there anything being carried in it? Where did the water end up? Enjoy your adventure!
